Handwritten text in a cursive script, likely a letter or a page from a manuscript. The text is written in a single column and is mostly illegible due to fading and the quality of the image. The script appears to be from the 17th or 18th century. There are some words that are more legible, such as "I have" and "I am", but the rest of the text is too faint to transcribe accurately.

Government &c. of each State in the Union.

NEW-HAMPSHIRE.

The executive power is vested in a Governor and Council. The Governor is chosen by the people annually. If there is no choice, the Legislature fill the vacancy, from the two highest candidates. The Council consists of five persons chosen by the people. The legislature is styled the General Court. Each branch has a negative on the other. The Senate consists of 12 members. Each town containing 150 rateable polls sends one Representative, and every additional 300 polls entitles it to another. The Governor, Counsellors, Senators and Representatives are chosen on the 2d Tuesday of March in every year. The Constitution of N. H. was adopted Feb. 1792.

MASSACHUSETTS.

The executive consists of a Governor, Lieutenant-Governor, and a Council of nine members. The two first are chosen by the people annually. The Council is chosen by the legislature out of the 40 returned as senators; and, if they decline, from the mass of the people. The legislature consists of a Senate and House of Representatives, both chosen annually by the people. The Senators are chosen by districts; the Representatives by the towns. Each town having 150 rateable polls sends one, and another for every additional 225 polls. The legislature assemble annually in May and January, and on some special occasions oftener. The Governor, Lieutenant-Governor, and Senators are chosen on the first Monday in April annually. The Representatives are chosen annually in May. The Constitution of Massachusetts was adopted March, 1780.

CONNECTICUT.

The Charter of Charles II. in 1662 contains the Constitution of this State. The legislature is composed of a Council and House of Representatives. The Council consists of a Governor, Lieutenant-Governor, and 12 Assistants. The Governor presides, and has a vote, and a casting vote. They are all chosen annually on the 2d Monday in April: the two first directly from the mass of the people; the Assistants from a nomination of 20, which is filled up by the people in the preceding October. The House of Representatives is chosen

twice a year, viz. on the 3d Monday in March, and 3d Monday in September ; 80 towns send each two Representatives, and towns made since the charter send but one each. This government has been in operation more than 170 years.

RHODE-ISLAND.

The Charter of 1663 is the Constitution of this State. The legislature is composed of a Council of twelve, including the Governor and Deputy-Governor, all chosen annually ; and a House of Representatives, consisting of 72 deputies from the several towns, chosen twice a year, viz. on the 3d Wednesday in April, and the 4th Tuesday in August.

VERMONT.

The legislative power is vested in a House of Representatives, chosen annually on the 1st Tuesday in September, and to meet on the 2d Thursday of the succeeding October. Each inhabited town has a right to send one Representative to the Assembly. The executive power is vested in a Governor, Lieutenant-Governor, and twelve Counsellors, chosen annually on the 1st Tuesday in September. The Constitution of Vermont was adopted July 9, 1793.

NEW-YORK.

The legislature is composed of a Senate and House of Assembly. The Senators are chosen by districts, for four years. They are divided by lot into four classes. The seats of the first class are vacated in one year, the second class the second year, &c. so that a fourth part of the Senate are elected annually. Annual elections are on the last Tuesday in April and the two following days. Members of Assembly are chosen by the several counties annually. A council of revision, composed of the Governor, Chancellor, and the Judges of the Supreme Court, is empowered to revise all bills passed by the two Houses, and to return them to the House where they originated. If this is done, two thirds of both Houses must re-enact them, or they are defeated. If it is not done in ten days from the time a bill is passed, it becomes a law of course.

The executive is composed of a Governor, Lieutenant Governor, and Council of Appointment. The Governor is chosen every three years. The Lieutenant Gov-

ernor, chosen for the same time, is President of the Senate. The Council of Appointment consists of the Governor, and one Senator from each District, chosen annually by the legislature. It has the appointment of all subordinate officers, executive and judicial.

NEW-JERSEY.

The legislature is composed of a Legislative Council and House of Assembly. The Council is chosen annually, and consists of thirteen members; each county choosing one. The Assembly consists of 35 members, also chosen yearly. The executive is composed of a Governor, annually chosen by a joint ballot of the legislature; a Vice-President, chosen by the Council; and a Privy Council, consisting of any three members of the Legislative Council. The Governor is President of the Council, Chancellor, Surrogate-General, and Captain-General. Annual elections in October.

PENNSYLVANIA.

The legislative power is vested in a Senate and House of Representatives. The Senators are chosen by districts, and hold their offices four years. One fourth of them are elected annually. The Representatives are chosen annually by the city of Philadelphia, and the respective counties. The legislature meet once a year in December. The executive power is vested in a Governor, who is elected for three years; but cannot be chosen above 9 out of any 12 years. The candidate who has the highest number of votes is Governor, although he may not have a majority of all the votes.

DELAWARE.

The legislature consists of a Senate and House of Representatives. The Representatives are chosen annually on the 1st Tuesday in October, and by counties. The Senators are chosen triennially, and by counties. One third of the Senators go out annually. The Assembly meet in January. The Governor is chosen by the freemen triennially, and can hold the office only three, out of any term of six years. The Speaker of the Senate, in case of the absence, death, or resignation of the Governor, acts in his room.

Delaware had a smaller population than either of the States at each national enumeration. In 1810, it contained 72,674 inhabitants. Its constitution was adopted in June, 1792.

MARYLAND.

The legislature consists of the Senate and House of Delegates. The Senate is chosen by electors, who are elected by the freemen (on the first Monday in Sept.) every fifth year, two from a county, and one from each of the cities of Annapolis and Baltimore. The electors meet at Annapolis a fortnight after they are chosen, and elect by ballot 9 Senators from the western shore, and 6 from the eastern, who hold their station five years. The delegates are chosen annually on the first Monday in October. The Assembly meets annually on the first Monday in November. The Governor, and an executive council of five persons, are chosen annually, on the second Monday in November, by a joint ballot of both Houses.

VIRGINIA.

LOUISIANA.

This State is entitled to send two members to the Senate, and one member to the House of Representatives of the United States. Until a new census, it will of course choose three Electors of President and Vice President. In 1810, the city, suburbs, and precincts of New-Orleans, contained 24,552 inhabitants ; of whom 13,728 are whites, and 10,824 are slaves.

MISSISSIPPI.

In November, 1812, this Territory was incorporated into a State ; and included within its limits a part of West-Florida, claimed as originally constituting a portion of Louisiana, and as embraced in the purchase of that Territory. Mississippi Territory originally contained about 90,000 square miles ; 330 miles in length from east to west, and 278 in breadth. The representation of this State in Congress is the same as that of Louisiana.

DISTRICT OF COLUMBIA

Is a square with a side of ten miles, and of course contains 100 square miles. It lies on both sides the Potomac, and includes the towns of Washington, Georgetown and Alexandria. It is divided into two counties ; the county of Washington on the north side of the Potomac ; and the county of Alexandria on the south side. In the former, the laws of Maryland are continued in force ; in the latter, those of Virginia. Congress, however, makes what laws it pleases for both.

Washington city is built on the Maryland side of the Potomac, on a point of land between what is called the Eastern branch and the Potomac. Its plan as laid out, extends nearly four miles up each of those rivers. The Eastern Branch forms a safe and commodious harbour, being sufficiently deep for the largest ships, for about four miles above its mouth, while the channel lies close

along the bank adjoining the city, and affords a large and convenient harbour. The capitol is situated on a pleasant eminence, commanding a view of every part of the city, and of a considerable portion of the country around. Such streets as lead immediately to public places are from 130 to 160 feet wide; others from 90 to 110. This city became the permanent seat of the National Government in 1800.

INDIANA TERRITORY,

Containing 24,520 inhabitants, is divided into four counties, and 27 townships. Its average length is about 270 miles, and its average breadth about 130. Number of square miles, 35,000. The officers of this government are appointed by the President of the United States. Vincennes is the capital and the seat of government, and is also the centre of commerce.

MICHIGAN TERRITORY.

This Territory is divided into four districts, viz.—Erie, Detroit, Huron, and Michilimakinak. Its greatest length from South-east to North-west, is 500 miles; from North-east to South-west it is 300. The number of square miles, both of land and water, is estimated at 150,000. The legislative power is vested in a Governor and a Supreme Court, composed of three Judges, all appointed by the President of the United States. The executive power is vested in the Governor, and the judicial in the three Judges, and such civil magistrates in the various districts as the Governor shall appoint.

ILLINOIS TERRITORY.

This is the western half of what was formerly called the Territory N. W. of the Ohio, and embraces the whole of it, except what is included in the State of Ohio, and the Territories of Michigan and Indiana. The whole tract contains about 200,000 square miles. It was a part of the Indiana Territory till 1809, when it was erected into a separate government. Population in 1810, was 12,282 inhabitants.

The Territory originally included in Louisiana, was estimated to contain nearly a million of square miles; as large an extent of country as the whole of the residue of the United States. In 1810, it contained 97,401 inhabitants.

UNIVERSITY AT CAMBRIDGE, OR HARVARD COLLEGE.

The General Court of the Colony of Massachusetts Bay, in Sept. 1636, appropriated £. 400 for a School or College within the Government; and appointed and named six Magistrates, and six Elders to order the College. In 1637, they voted that the College should be erected at Newtown. In the year following, they changed the name of Newtown to Cambridge, and in March, 1638—9 enacted that the College to be built at Cambridge, should be called Harvard College, in honour of the Rev. John Harvard, who had bequeathed to it £779:17:2, with his library. In the year 1642, the General Court established the Board of Overseers, to consist of the Governor, Deputy-Governor, for the time being, all the Magistrates of the jurisdiction, with the teaching Elders of the six next adjoining towns; who were invested with power to make statutes and laws for the government of the College, and to dispose and manage its funds.

In May, 1650, the Charter of the Corporation was granted; said Corporation to consist of a President, five Fellows and a Treasurer, styled the President and Fellows of Harvard College. By this Charter, the Corporation procuring the presence of the Overseers, and by their counsel and consent, have power to fill vacancies in their own body. They are authorized to receive and hold real estate, not exceeding the value of £500 prann. and any goods and sums of money whatsoever; and to make conclusive bargains for lands and tenements, &c. They are to choose and remove officers, and make orders and by-laws for the carrying on the work of the College; provided the said orders be allowed by the Overseers. By an act of the Court in 1657, called an Appendix to the Charter, the acts of the President and Fellows have immediate force and effect; they being responsible for the same to the Overseers. The Constitution of the Commonwealth recognizes and confirms the powers of the Corporation and Overseers of Harvard College or the University in Cambridge, pointing out the successors to the former Overseers, and reserving to the Legislature of the State such control over the government of the College, as was possessed by the Legislature of the late Province. By an act of the Legislature in 1814—the Corporation may hold real estate to the value of 10,000 dollars per annum.

*The Convention of the Congregational Ministers in the
Commonwealth of Massachusetts*

IS a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, but vested with no particular authority or control over the Churches.

Their meeting is holden in Boston, in the afternoon of the last Wednesday in May, or day of Election annually; and the following day at eleven, A. M. after transacting the usual business of the Convention, a sermon is delivered in publick before them, and a collection made for the charitable purpose of relieving the indigent widows of Congregational Clergymen.

Difficulties having often arisen in determining, what widows are the proper objects of the charity of this Convention, it was voted, June 1, 1815, — That a standing Committee of 30 be appointed, 5 of whom shall be chosen centrally; and the remainder in different parts of the State. The five shall act as a *Reporting Committee*, to receive from the other members of the Committee applications and statements of facts in behalf of persons, who may be subjects of the charity of the Convention, and having considered the same, shall judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the 1st day of their meeting, annually; further, that the names of said Committee shall be annually published in the *Massachusetts Register*.

STANDING COMMITTEE.

Rev. Dr. Kirkland, Rev. Dr. Holmes, Rev. John Pierce, Rev. Charles Lowell, Rev. Joshua Huntington, are the *Reporting Committee*.

Accordingly, when the widow of any Congregational Clergyman is considered an object of the charity of the Convention, it is desired, that answers to the following questions be given by one of the Standing Committee, *by the first of May* in each year, to be communicated to the Reporting Committee, that they may possess the documents for making a correct report to the Convention.

1. What is her age?
2. What are the number, the sex, the ages, and the circumstances of her children?
3. What is a fair estimate of her property?
4. What is her ability to help herself?
5. What connexions has she, who are bound to afford her assistance? And in what way do they assist her?
6. What is her income?
7. What peculiar circumstances render her an object of charity; or make it desirable, that she should have aid, this year?

The Rev. Alvan Hyde, D.D. of Lee, is chosen to deliver the next Convention Sermon. In case of failure, Rev Henry Ware, D.D. of Cambridge, will officiate in his stead.

The Convention earnestly recommend to all young gentlemen who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity which learned and judicious advisers shall think necessary to qualify them for public teachers.

Annual meeting at Portland, 2d Wednesday in Oct.

The General Association in Massachusetts.

THIS body was organized in June, 1805. In 1814, it consisted of Delegates from 12 Associations in Massachusetts Proper. Its members "admit, as articles of faith, the doctrines of Christianity, as they are generally expressed in the Assembly's Shorter Catechism," and consider these doctrines, which have been generally embraced by the Churches of New-England, as the "*basis of their Union*." This body wholly disclaims ecclesiastical power or authority over the Churches, or the opinions of individuals. Their essential objects, as expressed in their Constitution, are "to promote brotherly intercourse and harmony, and their mutual animation, assistance and usefulness as ministers of Christ; to obtain religious information relative to the state of their particular churches, and of the general state of the Christian Church in this country and throughout the Christian world; and to co-operate with other similar institutions in the most eligible measures for building up the cause of truth and holiness."

This Association sends Delegates to, and receives Delegates from, the following ecclesiastical bodies, viz. The General Assembly of the Presbyterian Church in the United States The General Associations of Connecticut and New Hampshire. And the General Convention of Vermont.

SECT. 3. *And be it further enacted*, That an addition of ten per centum shall be made to the several rates of duties above specified and imposed, in respect to all goods, wares, and merchandize, on the importation of which in American or foreign vessels a specific discrimination has not been herein already made, which after the said 30th day of June, 1816, shall be imported in ships or vessels not of the United States : *Provided*, That this additional duty shall not apply to goods, wares, and merchandize imported in ships or vessels not of the United States, entitled by treaty or by any act or acts of Congress, to be entered in the ports of the United States, on the payment of the same duties as are paid on goods, wares, and merchandize, imported in ships or vessels of the United States.

[DRAWBACKS.]

SECT. 4. *And be it further enacted*, That there shall be allowed a drawback of the duties, by this act imposed, on goods, wares, and merchandize imported into the United States, upon the exportation thereof within the time, and in the manner prescribed by the existing laws, subject to the following provisions, that is to say : That there shall not be an allowance of the drawback of duties in the case of goods imported in foreign vessels from any of the dominions, colonies, or possessions of any foreign power, to and with which the vessels of the United States are not permitted to go and trade ; that there shall not be an allowance of the drawback of duties for the amount of the additional duties by this act imposed on goods imported in vessels not of the United States ; that there shall not be an allowance of the drawback in the case of foreign dried and pickled fish, and other salted provisions, fish oil or playing cards ; that there shall be deducted and retained from the amount of the duties on goods exported with the benefit of drawback, (other than spirits) two and a half per centum ; and that there shall be retained in the case of spirits exported with the benefit of drawback, two cents per gallon upon the quantity of spirits, and also three per centum on the amount of duties payable on the im-

[EXPORTATION BONDS.]

SECT. 5. *And be it further enacted*, That after the 30th day of June next, in all cases of entry of merchandize for the benefit of drawback, the time of twenty days shall be allowed from the date of the entry, for giving the exportation bonds for the same: *Provided*, That the exporter shall, in every other particular, comply with the regulations and formalities, heretofore established for entries of exportation for the benefit of drawback.

Summary of the Method of Treatment to be used with Persons apparently dead from Drowning, &c.

The RESUSCITATIVE PROCESS, recommended by the Humane Society.

CONVEY the person to the nearest convenient house with his head raised; strip and dry him as quick as possible: clean the mouth and nostrils from froth and mud. If a child, let him be placed between two persons naked, in a hot bed. If an adult, lay him on a hot blanket or bed, and in cold weather, near a fire; in warm weather the air should be freely admitted into the room. The body is next to be gently rubbed with warm woollen cloths, sprinkled with spirits, if at hand, otherwise dry. A heated warming-pan may be now lightly moved over the back, properly covered with a blanket; and the body, if of a child, is to be gently shook every few minutes. Whilst these means are using, let a clyster of warm water, with as much common salt as it will dissolve, be thrown into the bowels. Bathe the breast with hot rum; and persist in the use of these means for several hours. If no signs of life should then appear, let the body be kept warm several hours longer, with hot bricks, or vessels of hot water, applied to the palms of the hands and soles of the feet; and

this for a longer or shorter time, as the circumstances of the case may dictate.

The too customary method of rolling on a barrel, suspending by the feet, and every violent mode of agitation, particularly in removing the body from the water, should be most carefully avoided.

To restore breathing, introduce the pipe of a bellows (when no apparatus is at hand) into one of the nostrils, the other and mouth being closed; *inflate the lungs*, until the breast is a little raised; mouth and nostrils must then be let free. Repeat this process until life appear.

Electricity is recommended to be early employed by judicious practitioners.

General Observations — *Resuscitation*.

On the *dawn* or first indication of returning life, the prudent practitioner will resign the office of *Art* to *Nature*. It is evident that *Art* has contributed her share, by enabling *Nature* to struggle with the immediate cause of oppression. It is in fact this judicious blending of *Nature* with *Art* that gives to the latter all its efficacy.

On signs of returning life.

A tea-spoonful of warm water may be given; and if swallowing be returned, warm wine or diluted brandy. The patients must be laid in a warm bed, and if disposed to sleep, they will generally awake perfectly restored.

The plans above recommended are to be used three or four hours. It is an absurd and vulgar opinion, to suppose persons irrecoverable, because life does not soon make its appearance.

⚡ Bleeding never to be employed, unless by the direction of a physician.

The Massachusetts Congregational Charitable Society.

Annual meeting, on the Monday preceding the General Election.

[This Society was incorporated, 24th March, 1786; "for the humane and benevolent purpose of affording relief and support to the widows and children of deceased ministers. The members may not exceed thirty, of the clergy and laity in equal proportion."

From several bequests and contributions, at different times, the funds of this society are respectable; from the income of which they make annual appropriations for the help of the destitute. The grants for the present year amounted to \$425. In addition to this, \$300 were voted by the Convention of Ministers, from their fund, which this Society hold in trust. These sums, with the collection, after the Convention Sermon, amounting to \$663 05 \$1388 05 were distributed to needy widows and children of deceased ministers. Still more than twice that sum, considerable as it appears, would be requisite to relieve the wants, which this Corporation have ample evidence exists in the Commonwealth, and which they and the Convention would rejoice to bestow. Among the many important and interesting charities which are among us, this has some peculiar claims, which the liberal and pious are solicited to consider.]

A Table, shewing the number of years which a person at any age has an equal chance to live.

[illegible]

The above Table contains the number of years, that any person within the usual term of human life, may at any age expect to live. For example, a person at the age of 40 years may reasonably expect to live 25 years longer. The use of this Table is, in case we buy an estate, and are to come into possession of it at the death of the person at present living on it, by looking at the column entitled *Age* for the present year of the incumbent's life, we shall find in the same line, in the column entitled *Chance*, the number of years that he may expect to live; that is, such a number of years, that as many as come to his age overlives as fall short of it.

In the British Regular Army, in 1811, the deaths were 13,476, and the desertions 5072; in the Militia, deaths 977, desertions 2015. In 1812, in the Regular Army, deaths 16,409, desertions 6004; Militia, deaths 990, desertions 1367. In 1813, in the Regular Army, deaths 18015, desertions 6284; Militia, deaths 870, desertions 1368.

SEPARATION OF MAINE.

IN February, 1816, in consequence of numerous memorials from individuals and towns in the District of Maine, the Legislature of Massachusetts directed that the citizens of Maine assemble in town and district meetings on the 20th of May, 1816, and give their opinions, by written yeas and nays, on this question—“*Shall the Legislature be requested to give its consent to the separation of the District of Maine from Massachusetts Proper, and to the erection of said District into a separate State?*”

Meetings were held accordingly: and the votes were, for separation 10,584; against, 6,401; total, 17,075. At the same time the number of legal voters in the District was 37,938.

In consequence of this vote, the Legislature by an Act of June 20, 1816, gave its consent to a separation, on certain conditions; one of which was, that, of the votes to be again given as before on the question of separation, on the first Monday of September, “a majority of five to four at least” should be in favour of separation. The same Act provided for the choice, on the same day of September, of Delegates to a Convention to be held at Brunswick on the last Monday of September, who were directed to sort and count said votes; and if the requisite majority should be found, were empowered to form a constitution. &c.

The Convention assembled accordingly; and found the whole number of votes, excepting some very informally returned, was 22,316; of which 11,969 were for separation, and 10,347 against it. Finding this result, the Convention, among other doings, appointed a Committee to address a Memorial to the Legislature, praying that its consent to a separation might be given, on the vote of September; and then adjourned to December 17, 1816.

This Memorial, with numerous remonstrances, was presented to the Legislature at its November session, and committed to a committee; whose report concluded with the following Resolutions:

“*Resolved*, That the contingency upon which the consent of Massachusetts was to be given for the separation of the District of Maine has not happened; and that the powers of the Brunswick Convention to take any measures tending to that event have ceased.

Resolved, That it is not expedient for the present General Court to adopt any further measures in regard to the separation of the District of Maine."

Which report was accepted December 4, 1816.

The following is an official list of the votes on the question of Separation.
